

WPT2011 Satellite Programme

Interventions For Stability Aspects Of Motor Control: Developmental And Neurologic Disorders Across The Lifespan

Time	Topic	Speaker
8.30 – 9.00	Registration	
9.00 – 10.00	Introduction/Definitions <ul style="list-style-type: none"> • Introduction to Motor Control • Definition of Motor Control • Compare/Contrast Movement Motor Control and Stability Motor Control (not the same as postural stability or equilibrium) 	Dennis Fell
10.00 – 11.00	Interventions (Discussion and Case Examples): including: <ul style="list-style-type: none"> • Neuromuscular electrical stimulation • Taping for temporary joint/segment support • Facilitation and practice of stability tasks (weight-bearing activities, progressive withdrawal of external support, neurodevelopmental treatment) • Ambulation treadmill training with support (BWSTT) 	Monica Diamond
11.00 – 11.15	Break	
11.15 – 12.15	Interventions (Discussion and Case Examples) including: <ul style="list-style-type: none"> • Biofeedback • Proprioceptive neuromuscular facilitation • Therapeutic Exercise • Pressure Garments 	Deb Nervik
12.15 – 12.45	Case Studies, Conclusions, Q/A <ul style="list-style-type: none"> • Case Studies in Motor Control Stability (Video) • Conclusions • Q/A 	Dennis Fell Dennis Fell, Monica Diamond, Deb Nervik
12.45	Close
