Faculty and students of NIHS attending a lecture at Leprosy Mission Hospital

The students attended a very nice presentation at The Leprosy Mission Hospital which was very beneficial for them both academically and clinically.

The students visited the various departments of the hospital including the in-patient wards, Orthotic department, Histo-pathological Laboratory and Burns Unit. Treatment interventions were explained in details.

view of Mycobacterium Leprae*

8th September, 2012

The students returned to college, invigorated and excited about their visit to the hospital and all that they had witnessed and had been explained. The students shared their experiences with faculty and staff. The faculty on their part delivered motivating speeches on the significance of **WORLD PHYSICAL THERAPY DAY** and how it has been a tradition for NIHS to celebrate it.
