Several days before the WPT celebration, the members worked very hard till late hours trying to organize the event, prepare the brochures, contact media to ensure the success of the event.

The Kuwaiti Physical Therapy Association celebrated the World Physical Therapy day (WPT) on the 8th and 9th of September 2011. The celebration took place in Marina Mall (8/9/2011) and Sharq Mall (9/9/2011), and on both days physical therapists from various hospitals of Ministry of Health and from Ministry of Education were present (10 am – 10 pm) to answer the public questions, distribute brochures, and educate the public on the various aspects and specialties of physical therapy.
We made sure that we reach the public through the media via newspapers, TV, and the radio.

Measuring body mass index
We tried to make it a family day where members of the family attend and participate in the event.

The special need were also interested in participating in the event.
On the other hand, almost all physical therapy departments around Kuwait celebrated the day as shown in the pictures.
