Dear industry partners

In May 2019 WCPT will hold its 19th Congress in Geneva. This is a unique gathering of the global physical therapy community. The fact that we are holding the congress in Geneva means that we will draw large numbers.

The excitement is already palpable in the global physical therapy community, evidenced by a record number of over 100 high-quality applications submitted for focused symposia. The twenty-six chosen draw on leaders in practice, research, education, policy and leadership from across the globe. This is just the start of what I know will be an exciting and engaging programme.

The WCPT Congress always attracts an international audience of highly motivated delegates seeking the latest in research, practice and education, as well as products and services. In recent years, our level of engagement and reach within the global community has grown and so we expect a record number of attendees in Geneva. With approximately 5,000 physical therapy professionals from over 100 countries expected to attend, sponsoring and exhibiting at the WCPT Congress 2019 is a unique opportunity to further develop your existing network and to engage with those who are attending for the first time.

Our exhibition spaces have always played a key role in the success of congress. The introduction of the new Indaba meeting space in 2017 was a great success, and located within the exhibition space drew large numbers of congress participants. We intend to continue with this initiative as well other aspects of programming to enable you to engage with our delegates.

Your participation plays a key role in WCPT’s efforts to deliver a high quality congress to the global physical therapy community. From an attendee’s point of view, the exhibition is the largest international physical therapy marketplace: an opportunity to discover new products, see expert demonstrations and try them out first hand.

Exhibiting is a great way to engage delegates, demonstrate products and build strong, meaningful, and lasting relationships with our international audience. We encourage you to take advantage of the varied options available. Several sponsorship opportunities also exist to extend your reach far beyond congress participants to thousands in the physical therapy community accessing the WCPT website and congress educational resources.

We look forward to seeing you at the WCPT Congress 2019.

Yours sincerely

Emma K Stokes
WCPT President
The WCPT Congress is the largest international gathering of physical therapy professionals in the world. Now held once every two years, it brings together clinicians, educators, researchers, managers and policy makers. It is truly where the world of physical therapy meets.
