HI, Humanity & Inclusion is seeking a Rehabilitation Research Officer

**Place:** FRANCE - Lyon  
**Type of contract:** CDD/6 months  
**Starting date:** ASAP  
**Closing date for applications:** 8/03/2020

“Outraged by the injustice faced by people with disabilities and vulnerable populations, we aspire to a world of solidarity and inclusion, enriched by our differences, where everyone can live in dignity”

Handicap International is changing his name and becomes « Humanity & Inclusion ». HI, Humanity & Inclusion is an independent and impartial aid and development organisation with no religious or political affiliations operating in situations of poverty and exclusion, conflict and disaster. We work alongside people with disabilities and vulnerable people to help meet their essential needs, improve their living conditions and promote respect for their dignity and fundamental rights.

Since the organisation was first founded in 1982, we have set up development programmes in 62 countries and responded to many emergencies. Today we have a budget of around 150 million euros, with 3500 employees worldwide.

HI is engaged in an employment policy in favour of disabled workers.

For further information about the association: [www.hi.org](http://www.hi.org).

**CONTEXT:**

Humanity & Inclusion's Operations Directorate (OD) is made up of 5 geographical directions, 4 technical directions, an emergency direction and a cross-cutting direction. The specific mandate of the technical directions is to provide technical support and a framework for HI's programs around the world, but also to carry out research and innovation projects as well as to represent HI externally. These departments are: Health & Prevention, Rehabilitation, Protection, Social Services and Inclusion. The Rehabilitation Technical Department is composed of 18 collaborators, in charge of embodying the different facets of this mandate for the Humanity & Inclusion programs on the theme of rehabilitation in humanitarian and development contexts.

Within a framework agreement, the Rehabilitation Department will carry out a research on the motivations and obstacles related to the use
HI, Humanity & Inclusion is seeking a Rehabilitation Research Officer of Information and Communication Technologies (ICT) among rehabilitation professionals in developing country contexts.

The proposed research aims to identify, analyse and measure the effects of 3 tele rehabilitation projects currently being conducted by HI:
- Improvement of level of functionality on the tele rehabilitation users
- Patient adherence and/or level of understanding in applying and performing the exercises

The research will also integrate the effects of representation and induced effects at the level of users and professionals. It implies defining the perception of the evolution of rehabilitation professions in the contexts of developing in regard to these technological evolutions. To understand how they perceive the evolution of their profession, what risks they identify but also what positive effects they can expect from it.

This research will precede a seminar planned for the first quarter of 2021. The results of the research will then be presented and enriched during this seminar.

**OBJECTIVES:**
The general objective of the mission is to ensure the implementation (final protocol and administrative authorizations), the realization (collection, treatment and analysis), the follow-up and the exploitation of the study/research results.

**Main responsibilities:**
- Carry out a review of practices of the projects currently implemented (global or selective analysis). This includes a mapping (internal focus) of the modalities of application of tele rehabilitation and a benchmarking (external focus)
- Identify the key research questions
- Conduct a study on the ongoing or retrospective effects, depending on the tele rehabilitation project, from the point of view of users and from the point of view of rehabilitation professionals.
- Formulate recommendations to build the upcoming seminar.

**DESIRED PROFILE:**
- You have a Master 2 or PhD in physical therapy, occupational therapy, social sciences, public health.
- You have 2 years of experience in conducting studies, research or evaluations.
HI, Humanity & Inclusion is seeking a Rehabilitation Research Officer
