September 12, 2015 was a memorable day for the Rehab Team of KPJ Damansara Specialist Hospital. In conjunction with the World Physiotherapy Day, the Rehab Team held a half day program in the hospital to celebrate the physiotherapists in the organization and instil awareness and education of the role of physiotherapist in assisting people of all generation to fulfill their life till the fullest.

Activities were conducted by the Rehab team of the organization and were participated by the employees of hospital, customers and visitors as well as the public. The program of the day was started with a ‘Walk & Hunt’ race, held at 7.00am, which was participated by the employees of KPJ Damansara Specialist Hospital. Later that day, a video presentation of the Rehabilitation Services was presented, followed by an opening speech by the Clinical Head of Rehabilitation Services, Dr Abd Malik Hussein. Activities conducted on that day include a Power plate presentation and demonstration, gym ball aerobics exercise, a talk on knee injuries by a supportive Orthopaedic Consultant of the hospital, Dr Johan Ahmad and a knee exercise demonstration by a physiotherapist.
In addition, during the celebration, five loyal customers of Rehabilitation Services were given an appreciation gift. There were also a cake cutting ceremony and lucky draw activities. Throughout the event, the suppliers of the Rehabilitation Service also took the opportunity to promote the Rehabilitation products to the public. Discount vouchers for physiotherapy treatment and exercise program were distributed to the customers and visitors of the hospital.

The event, which ended at 1.00 pm on the same day was a success and it was an honour to be supported by the management of the hospital and consultants as well as the customers and visitors. High appreciation is given to all parties in ensuring the success of the event. We are looking forward for WORLD PHYSIOTHERAPY DAY 2016!
